

DALTON ELECTRICAL

FACTORY MAINTENANCE • AUTOMATION • CONTRACTING • INDUSTRIAL ELECTRONICS

Company Overview

Dalton Electrical is an electronic & electrical contracting company that was started in 1966 by Dave Dalton, and is continued by his son Bruce Dalton. The strong family ethics and a focus on industrial work including Design, Engineering & Automation projects, Installation, Repairs, Maintenance and Service have remained constant for over 50 years. This is backed up by our 24/7 On-Call support system.

There is a definite team culture at Dalton's, staff help and challenge each other to perform at a high level. This positive environment has helped our industrial apprentices prove themselves to be the best in New Zealand on numerous occasions, and also represent New Zealand at the World Skills competitions in London 2011, Leipzig 2013 and in Abu Dhabi 2017.

The team at Dalton Electrical has also been recognised for their automation expertise by winning the Master Electricians Excellence awards in the automation project category on multiple occasions.

Company Vision & Values

Dalton Electrical's Values define our Identity, guide the decisions we make, and shape way we do Business. They were developed with input from the whole team to help us achieve our Vision of "Leading Industrial Service and Solutions for Another 50 Years"

Our Values Are:
